

FEATURES:

- USB 3.1c Male – DVI Female Adaptor
- Black PVC Cable
- Fully Moulded

DESCRIPTION:

The current trend of making laptops thinner now means that many of the connectivity options you are used to seeing have been replaced by a single USB Type C socket. Simply attach this unit to the USB Type C connector on the laptop and you will gain a DVI socket. You will then just need to connect to a display screen using the appropriate cable.

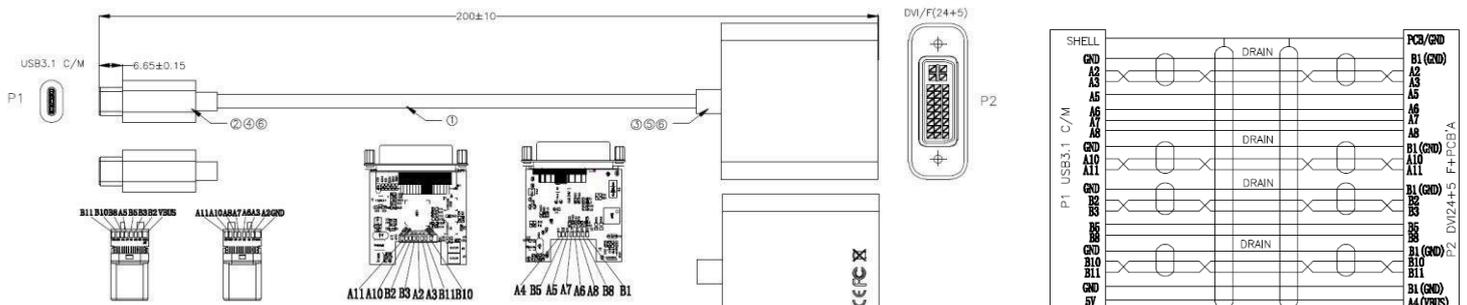

SPECIFICATIONS:

Connector – USB 3.1c Male - Nickel plated shell & Black Rubber Core

Connector - DVI Female – Nickel plated shell & White Rubber Core

OD: 4.0mm
