40-4410	USB-IF Certified 1m USB4c Gen3 40Gbps 100W PD Male - Male Black Cable
40-4415	USB-IF Certified 1.5m USB4c Gen3 40Gbps 100W PD Male - Male Black Cable

What are the main advantages of USB4?

The USB4 specification (officially known as "USB4", written without a space) has three key traits, according to the USB Implementers Forum (USB-IF). These include:

- Two-lane operation with up to 40Gbps operation (over certified cables), using the USB Type-C connection
- More efficient sharing between data and display protocols
- Backward compatibility with USB 3.2, USB 3.1, USB 3.0 & USB 2.0
