

FEATURES

- Angled Adaptor for Keystone Jack
- 25mm x 50mm
- Spring Loaded Shutter
- Labeling Window
- Sold Individually

DESCRIPTION

The 25mm x 50mm Angled Adaptor for Keystone Jacks is part of the mounting hardware family. All adaptors come with a labelling window for easy outlet identification and a spring-loaded shutter to protect the connections in the jack from dust. The angled shutter helps to reduce the depth required in back boxes and floor boxes, thus providing improved cable management.
