- Insertion Loss - $\leq 0.2\text{dB}$
- Return Loss - $\geq 55\text{dB}$
- Test Wavelength - $1310\mu\text{m}$

Product Description

Our LC UPC - ST UPC OS2 singlemode fibre optic patch leads are used to connect networks over greater distances than multimode fibre. Supplied in bags of 10 means less plastic used in our packing, and less waste to dispose of.

All assemblies are fully tested during manufacturing and are supplied with test results.

OS2 singlemode patch leads are supplied with a strain relief boot and a 3.00mm yellow LSOH cable jacket as standard.

Non-stocked configurations (length, colour, connectors and cable type) can be manufactured to meet specific requirements - please contact our sales team for more information.
