

### FEATURES

- LC and SC variants
- OM3 (Aqua), OM4 (Erika Violet) and OS2 (Blue)
- Snap Fit with Screw Fix Option
- Duplex or Quad Versions Available

### DESCRIPTION

These Fibre Adaptors are used to join two connectors together and are usually mounted in a fibre optic patch panel, fibre optic breakout box and more recently in fibre optic wall outlets where a fast link is required in an office environment.

By using high quality adaptors, this ensures that both ferrules are perfectly aligned and thus minimizing losses.

The adaptors are supplied in Duplex or Quad versions

### TECHNICAL SPECIFICATIONS

Material - Polymer body with precision alignment sleeves
